WOOD				
<p>Grade 0000: Polishing waxed wood. Smooth matt finish for highly polished wooden surfaces. Removal of water stains on waxed wood.</p> 	<p>Grade 1: Sanding and polishing wood surfaces after priming and before applying first coat of paint.</p>  <p>Grade 2: Spreading wax on wood and stone floors in a thin, even layer.</p>	<p>Grade 3: Sanding of primed wood, highlighting the natural structure of the surface.</p> <p>Grade 5: Removal of stain residue on wooden surfaces after stripping.</p> 	<p>Grade FINE: Sanding grained wood such as unprotected parquet flooring or wooden tables.</p> 	<p>Grade EXTRA FINE: For smoothing wood with high tannin content, e.g. oak, walnut or mahogany, without discolouring the grain.</p> 
PAINT				
<p>Grade 000: For intermediate sanding on varnish or shellac.</p> 	<p>Grade 1: In combination with varnish remover, removal of old varnish from antiques.</p> 	<p>Grade 5: Roughens surface of old paint before applying new paint.</p> 	<p>Grade MEDIUM: Removal of stain residue after stripping heavily-grained wood.</p> 	<p>Grade MEDIUM: For thoroughly removing paint residue without danger of rusting, even on outer surfaces.</p> 
METAL				
<p>Grade 000: Gives a bright shine to items made of copper or brass.</p> 	<p>Grade 0: Removal of oxidation on copper, polishing copper pipes and fittings before soldering.</p> 	<p>Grade 4: Removal of rust film, oil, lime and water scale.</p> 	<p>Grade ULTRA-COARSE: Removal of rust from metal surfaces in combination with solvent.</p> 	<p>Grade FINE: Ideal for complete and hygienic cleaning of cooking utensils, etc.</p> 
CLEANING				
<p>Grade 00: Grease and soot removal from plastic blinds and aluminium window frames.</p>  <p>Cleaning glass and mirror surfaces.</p>	<p>Grade 0: Complete removal of dirt and footprints from linoleum and rubber floors.</p> <p>Grade 2: Removal of wax and dirt residue on wooden surfaces. Cleaning floor and wall tiles as well as plastic tiles.</p> 	<p>Grade 4: Removal of persistent dirt from corners and angles.</p> <p>Grade 5: Reliable cleaning of glass bricks and tiles without scratching.</p> 	<p>Grade FINE: Removal of coarse dirt on stone and ceramic surfaces.</p> <p>Grades FINE, MEDIUM and COARSE: Steel fibres are an ideal material for insulation and filtering purposes.</p> 	<p>Grade COARSE: For removing even stubborn stains and dirt deposits on tiles and ceramic floors, especially in bathrooms, kitchens and other wet areas.</p>
